

9/11/24

To Whom It May Concern:

Interface Children & Family Services has had a long-standing relationship with Cornerstone Counseling Center. Cornerstone refers victims of domestic violence to our services, which include a 24/7 crisis hotline, safe shelter, advocacy, and therapy.

In the past, our organizations collaborated on court-mandated services, including our Batterers' Intervention Program, which operated from 1991 to 2016. We also worked together in inter-agency meetings to address domestic violence, sharing strategies, tools, and community resources. Additionally, Cornerstone is listed as a resource in the 211 Ventura County database.

We deeply value our partnership with Cornerstone Counseling Center and our shared commitment to supporting victims of domestic violence and breaking the cycle of abuse. We look forward to continuing this important work together.

Sincerely,
