Good Morning,

To improve behavioral health offerings for eligible NFL players and their dependents, the NFL and NFLPA have identified outpatient behavioral health providers around the country for an NFL-specific directory. This initiative is designed to help ensure that players and their families have access to the highest-quality behavioral health care available.

You are receiving this email as a potential provider for this specialized network because you currently provide, or have recently provided, services to an NFL player and/or their dependents through the Cigna NFL Player Insurance Plan.

As part of the provider review process for this initiative, you may be contacted by a representative of the National Football League Players Association (NFLPA), who will reach out to schedule a phone call to learn more about your practice and ask questions. Participation in this provider review process does not guarantee inclusion in this specialized network. If you are not selected for inclusion, you may continue providing services to players and their dependents as you have done previously.

If you have any questions, please reply to this email and a member of the National Football League Players Association will be able to assist.

Your expertise and commitment to behavioral health are invaluable to this initiative and this population. We appreciate your support of the well-being of these individuals and their families.

Best,

**NFLPA Wellness**
